Summary

MERN Stack Developer with strong expertise in building scalable, high-performance web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing responsive frontends, robust backends, seamless API integrations, and secure payment solutions. Adept at problem-solving, writing clean and efficient code, and delivering smooth, user-focused digital experiences. Passionate about leveraging modern web technologies to contribute to innovative projects and drive business growth.

Skills

Languages: JavaScript, Python, Java

Frontend: HTML, CSS, React.js, Next.js

Backend: Node.js, Express.js

Database: MongoDB

Other: Git, SDLC, DSA, Problem Solving

Experience

Software Engineer Intern

June 2022 – August 2022

Self Project Internship

Remote

- Worked on multiple web projects using HTML, CSS, JavaScript, Python, and MongoDB.
- Learned problem handling, debugging, and project development in a real-world environment.
- Collaborated with team members to build and deliver working solutions within deadlines.

Projects

Food Delivery System | MERN Stack

- Developed a food ordering platform with smooth navigation, secure payments, and real-time order tracking.
- Integrated live location tracking for delivery personnel to enhance customer experience.
- Admin panel allows restaurant owners to manage menus, orders, and customer queries efficiently.

E-Commerce Platform | MERN Stack

- Designed an online shopping platform with product listing, search, cart, and checkout functionality.
- Integrated payment gateway and order history for seamless customer experience.
- Admin module includes product management, inventory updates, and sales analytics.

Blog Management System | MERN Stack

- Created a blogging application where users can register, create, edit, and delete posts.
- Implemented commenting and like/dislike features for enhanced user interaction.
- Optimized backend APIs for fast, secure content delivery.

Awards & Certifications

- **1st Position – Pitch Deck Competition (2024):** Developed “The Pujari Website” and won first prize for innovative design and execution.
- **1st Position – Showcase Competition (2024):** Recognized for outstanding project presentation and technical implementation.
- **2-Month Internship (2022):** Completed intensive training in full-stack development, project handling, and debugging.

Education

B.Tech in Computer Science

Gurgaon University

2023 – 2026

Current CGPA: 7.5 / 10

Diploma in Computer Science & Engineering

Government Polytechnic Adampur Mandi Hisar (HSBTE Board)

2020 – 2023

Final CGPA: 6.5 / 10
