SUMMARY

A motivated and detail-oriented Computer Science and Engineering student with a strong foundation in programming and teamwork. Seeking to contribute technical skills and innovative thinking to a challenging environment, while fostering personal growth and the overall development of the organization.

WORK EXPERIENCE

Training at Infowiz Software Solution

Aug 2022- sep 2022

- Completed Python training, gaining hands-on experience in implementing programming concepts such as data structures, file handling, and basic automation tasks.
- Developed practical skills in coding and debugging, enhancing problem-solving capabilities.

PERSONAL PROJECTS

PORTFOLIO WEBSITE

- Designed and developed a responsive and interactive personal portfolio website using HTML, CSS, React, and AngularJS. The website showcases personal projects, technical skills, educational background, and contact information in a clean and user-friendly interface.

VIRTUAL ASSISTANT

- Designed and built a voice-based virtual assistant using HTML, CSS, and JavaScript to simulate intelligent user interaction through speech recognition and response. This browser-based assistant is capable of understanding simple voice commands and responding with appropriate actions or information.

EcoCart – Sustainable Shopping Assistant

- Developed EcoCart, a web-based sustainable shopping assistant that helps users make eco-friendly purchasing decisions by scanning product barcodes and displaying environmental impact ratings. Built using React.js, Node.js, and integrated with the OpenFoodFacts API and a custom sustainability scoring algorithm.
